Steel Trust Cuts Dividend on Common Stock Fifty Per Cent.

Regular Income Allowed on the Preferred Shares. Reason Given for the Reduction Specified is That Business Has Fallen Off-Inside Facts of the Significant Course Adopted by the Corporation.

won a victory this afternoon in his battle with J. P. Morgan for the control of the billion-dollar steel trust. The directors of the United States Steel Corporation met in their quar-terly meeting and voted to cut the dividend on common stock one-half. They declared a quarterly dividend of one-half of 1 per cent, instead of 1 per cent, as formerly. On the preferred stock the regular quarterly dividend of 1% per cent, was voted. The carnings for the quarter were given as \$32,382,821, as compared with \$36,642,308 for the previous quarter. The total carnings for the nine months to date are given as \$34,083,836.

The action today settles a which has been agitating Wall street for several montas. Ever since the last meeting of the steel corporation, stockholders have been asking themseves whether the billion-dollar trust was still controlled by J. P. Morgan or whether J. D. Rockefeller has wrested asked from him. Three months ago it control from him. Three months ago i opposed to the payment of a full dividend on the common stock; and that it was only the personal influence of Morgan which secured regular payment at that time at that time.

The fight which resulted today in victory for Rockefeller has been requietly, but with weapons of gigantic size. When the steel trust was first organized and its stock placed on the market, it was practically promised by Moram that the dividends on the company stock would be faild as long as the carming of the trust footed up \$106. The samples of the company of the averaged \$125,00,000 a year, and on this account force has insisted that it was only fustice to be stockholders that the dyvidend on the common stock should be maintained at 4 per cent. a year. Rockefeller, however, maintained, it is understood, that the transfer of the company of the c the trust could not expect, under pres-ent business gonditions, to keep up this mammoth earning for the next few years, and that it would be only good ousiness policy to cut the dividend on

NEW YORK, Oct. 6.—The dividen on the common stock of the United States Steel Corporation for the last quarter was today reduced from 1 per cent. to % per cent. thus setting at rest a matter which has agitated Wall street and financial circles ger erally for many weeks. To quote a very high authority in the affairs of the corporation, "The action of the board was unanimous, and was caused by the falling-off of business."

This is borne out by the financial statement issued shortly after the

meeting.

The official statement of net carnings for the quarter (September estinated) shows: July. \$12,384.647; August, \$10,918,174;

July. \$12,384,647: August. \$16,918,174; September. \$9,000,000. The statement shows a decrease of \$4,642,688 (Sepber estimated.) for the third quarter of the calendar year, compared with the same period last year, and a decrease of \$4,239,487 compared with the preceding quarter of this year. October 1, 1902, the corporation had unfilled orders of 4,543,000 tons on hand. This year, the unfilled orders on the same date amounted to \$1,728,324 tons.

The preferred stock, on heavier transactions, sold as high as 66, but closed at 64 7-8, a one-point gain on the day. Dealings in the sinking fund bonds were in very large volume, the price ranging from 71 to 2%.

VITAL POINTS OF ORATION.

The points of his speech attracting remarkable attention; were his eulogy of Mr. Balfour and his repudiation of the idea of superseding him; his representation of the coming struggle, as one greater in its consequences than the Boar War; his declaration that all workingmen in the colonies were protectionists, and that any labor leader visiting the colonies would inevitably be converted to protection; his description of the American tariff as an abomination, and his currious presentation of the case as affecting the workinen's exchequer. Thus, according to him, the increased cont of the new duties to the laborer would be 3½ farthings (3½ cents.) while the saving by the proposed reduction to the laborer would be 15 farthings (5 cents.) and to the artisan 15 farthings (3½ cents.)

I now ask the question, is it so prepared? Great Britain in the past has

CRACKS IN THE EMPIRE. The late Colonial Secretary alluded to the recent visit he paid to Venice, when he found the campanile, which when he found the campanile, which had stood for centuries, and which, when he previously visited Venice, seemed as permanent as the city itself, now a mass of ruins. He continued:

"I do not say that I anticipate such a fate for the British Empire, but I say I see signs of decay, cracks and crevices showing that the foundations are not broad and deep enough to sustain it. Am I wrong to warn you? Is it not strange and inconsistent that the same people who indicted the government for its unpreparedness in the South African War, should now denounce me in language equally extravagent because I want to prepare you for a struggle so serious that I was a redection of taxation.

"In the same period our exports to non-manufacturing countries like Egypt, China and South America have practically remained unchanged. Our colonial trade, in fact, is the most rapidly increasing, important and valuable of all our trade. Meanwine foreign exports to the United Kingdom have risen from \$3,000,000 in 1876 to 142,000,000 pounds in 1802. I do not comment on that, but when I am told that we ought to hold the same opinions as our ancestors I reply that we should it the circumstances required the same. "Have you ever considered why Canada takes a much larger amount per capita of British manufactures than the United States, Australia thrice as much as Canada and South Africa more than Australia? These are all protective countries. The vast majority of the workmen in the colonies are protectionists, and I am disinclined to accept the easy explanation that they are all foots.

HISTORY OF PROTECTION. "Now, what is the history of protec-tion? First, there is tariff and no in-dustries. Then gradually primary in-dustries for which the country has nat-ural facilities grow up behind the tar-ing wall, then secondary industries spring up; first of necessaries, then of luxuries, until at last all the ground is covered.

years hence.

TIN PLATE OBJECT LESSON.

"America is the strictest of the protective nations. It has a tariff which to me is an abomination, it is so immoderate, unreasonable and unnecessary, and although America has profite encountered to excessive lengths; and I believe that a great number of intelligent Americans would giadly negotiate with us for its reduction. But until very recently even this immoderate tariff left us the great tin plate trade, amounting to millions of pounds per annum, and which we might have kept ff we had made some such concessions to Germany we should still have been exporting to that country many serticles the market for which is now closed to us.

"Were we to lose the colonles as we make the companied by his daughters, Mrs."

Mr. Chamberlain said he believed that the colonies "are prepared to meet us in return for a very moderate preference." He wished to repeat explicitly that he did not wish to tax raw materials used in British manufactures. It was evident that if they wanted to prevent separation there must be a preferential tax on food. That was the great ery of his opponents, and it was true, but it was only half the truth. Those opponents forgot to add his explanation that nothing he proposed would add one farthing to the cost of living of any working man or of any family in the country. With regard to his plan, he would state it briefly. He proposed to put a low duty, not exceeding two shillings (48 cents) a quarter on foreign corn, but none on corn from the British possessions. He proposed no tax on maize, partly because it formed the food of some of the very poorest among the population. He proposed a corresponding tax on flour, and he would give special preference to the milier, with the object of restablishing one of our ancient industries and of preventing a rush from the country to the town, and also of placing corn, offal and feeding stuffs more cheaply within the possession of the farmer.

farmer.

A small tax of about 5 per cent. on the foreign meat and dairy products would be imposed, excluding bacon, which was the food of so many of the poorest of the population. Lastly, he proposed to give a substantial preference to the colonies on wines and fruits.

GREAT REMISSIONS.

Against these increases he proposed some great remissions. He proposed to take off three-quarters of the duty on tea, half the duty on sugar, with corresponding reductions on cocoa and coffee. The net result of these impositions and remissions would be that the town artisans food would, according to the most elaborate calculations, cost him two pence half penny (five cents) less per week than it did at present, while that of the agricultural laborer would cost him two pence (four cents) less, but, if, as he believed, a great part of the tax on food would be paid by the foreigner, there would be a reduction in the cost of food Loth for the artisan and the agricultural laborer.

This content is already commonly designated as the "Transcontinents Cabinet" seems ingrely due to be sense of chaos arising from the unexpected defection of the Duke of Devonshire, as with the notable exception of the Cabinet in a manufacture with the cabinet in a m

the Duke of Devonshire, the chief author of the Liberal Unionist party, and this was amply recognized by Mr. Balfour's letter, acknowledging the receipt of his resignation.

The Duke's action, however, seems to have sroused the same fighting spirit in Mr. Balfour which enabled him to triumph over difficulties in the eighties, when the whole of Ireland was in arms against him, and there are not lacking those who foretell that he will again come out on top, and prevent the collapse of his government. The general concensus of opinion hardly expects the government to remain in power, even for a single session, and all the political parties are preparing for an early dissolution of Parliament.

It was rumored today that the Martine and the session is a series of the series of the

preparing for an early dissolution of Parliament.

It was rumored today that the Marquis of Londonderry, president of the Board of Education, may follow the Duke of Devenshire into retirement.

The new Colonial Secretary, Alfred Lyttleton, has made only one pronouncement on the fiscal question. On that occasion he defended Mr. Chamberiain's action in launching the discussion, but contended that the poor man's budget must not be weighted, and said he would be especially sorry to add to the food bill. He anticipated a readjustment rather than additional taxation, and thought the government should have a weapon for use in the negotiation of commercial treaties.

The musical programme was rendered by the choir of St. Johns and the string orchestra of the Marine Band. The three hymns rendered were sung at the cabled request of Lady Herbert, and are the same cabled request of Lady Herbert, and are the same as those rendered at the funeral services today in Great Britain. The hymns were "Hark, Hark, My Soul," by Sir Josenh Barnard, "Lead, Kindly Light" and "Fight the Good Fight with All Thy Might." Two anthems were chanted by the choir. VIEWS OF NEWSPAPERS.

OPPONENTS ARE UNCONVERTED,

[BY THE ASSOCIATED PRESS-P.M.]

LONDON, Oct. 7.—[By Atlantic Cable.] The morning papers devoted ample space both to their reports and their comments on Mr. Chamberlain's great effort at Glasgow but it cannot be said that the public will gain much their comments on Mr. Chamberlain's great effort at Glasgow but it cannot be said that the public will gain much enlightenment except from the late Colonial Secretary's own words. Conversion to his views appears as distant as ever from the columns which have hitherto been opposed to him. All recognize the ability of his presentation of his scheme, and his most rabid opponent, the radical Dally News, admits that Mr. Chamberlain sincerely believes that the colonies will secede unless a preferential scheme is adopted, and adds that this extraordinary belief implies a melancholy confession of the failure of his boasted drawing of the colonies closer to the mother country during his Colonial Secretaryship. For the rest, the Daily News regards his campaign as a peril to the empire.

Those newspapers favorable to Mr. Chamberlain regard his plan with considerable approval as being more moderate and involving a smaller measure of danger than might have been expected, and are inclined to think that if acceptable to the colonies it has a great chance of winning public favor.

Jet is pointed out that a duty of 24 shillings on what the chamber of the control of the shillings on what the chamber of the property and that a duty of 24 shillings on what the chamber of the colonies of the shillings on what the chamber of the chamber of the colonies.

it has a great chance of winning public favor.

It is pointed out that a duty of 24 shillings on wheat (Mr. Chamberlain uses the Euglish term corn) will be sufficient to stimulate its production in Canada, while being unlikely to greatly restrict its importation from the United States and other wheat-producing countries, and also that his proposed duties on manufactures are in no way dangerous. On this point, however, the Daily Chronicle, which represents the great body of moderate Radicals and the working class, calls attention to the vital difference between the views of Mr. Chamberlain and Premier Baifour.

The Premier only asked for power to retallate intermittently, while Mr. Chamberlain insists upon a general tariff. Thus, the Daily Chronicle contends, the murder is out, and protection pure and simple is aimed at.

The consequative Standard is still somewhat unconvinced, and declares that Mr. Chamberlain adduces no sattisfactory proof of his assertions of the dangers menacing the country's trade, nor even that the colonies are willing to meet the mother country half way. In short, the drift of newspaper comment goes to show that Mr. Chamberlain will has a stiff fight before him.

Programme for the Extra Session of Congress.

Resolution Making Cuban Treaty Effective Considered Safe.

President Attends Herbert Memorial Services-Cannon Steadies New York Market.

[BY DIRECT WIRE TO THE TIMES.]
WASHINGTON, Oct. 6.—[Exclusive
Dispatch.] With the general disposition of the Republican leaders to postpone action on important matters until after the Presidential election and the general desire of both parties to make campaign material, it is probable that both extra and regular sessions will be characterized by a great deal of talk and very little work. Campaign speeches in large number will be made so as to get them in the Congressions Record and make them available for circulation under franks next summer The primary object in calling an extra session is to put through a resolution giving effect to the Cuban reciprocity

The powerful interests that fought reciprocity with Cuba for so long seen how contented with the delay that they have occasioned, and do not seem to be preparing to make serious opposi-tion to the adoption of a resolution putting the treaty into effect. There to anticipate the failure of the reso

lution.

The Republican leaders having decided to postpone any action looking to the revision of the Dingley tariff until after the Presidential election, but realising that they cannot suppress the discussion of the general subject so long as that, are willing to have the Cuban reciprocity resolution made the vehicle of a general lariff debut with vehicle of a general tariff debate, with the object of getting as much of this sort of discussion out of the way be-fore the beginning of the regular session as possible.

Despite the determination to shelve the tariff question and to confine as much as possible of the debate to the extra session, the subject may come much as possible of the debate to the extra session, the subject may come up during the regular session, and is certain to do so if the question of allowing greater tariff concessions the Philippine Islands is taken up.

Like the tariff, the currency questions to be shelved until after the Press.

is to be shelved until after the Presi is to be shelved until after the Presi-dential election, owing to the sheer ina-bility of the party leaders to agree upon any plan. There are plains enough, but none of them can com-mand sufficient support to enable it to be put through Congress, either as a party measure, or in any other way. So this question will go over, and the party in power will depend on the abilparty in power will depend on the ability of Secretary of the Treasury Shaw to stave off any alleged crisis.

What may be termed in a general way the "labor question" will come before Congress in many different forms. Some of tag more radical of the self-styled champions of the wage earners in Congress will doubtless introduce a bill designed to confine employment of workmen by the United ployment of workmen by the United States to members of labor organizations. The American Federation of Labor and the organizations allied with it are already making a systematic campaign in favor of the passage during next session of an eight-hou: bill and an anti-injunction bill.

Anti-trust bills proposing more radi- : "CICK MAN'S" last Congress will be introduced, as will also bills to amend the interstat commerce law, but it is extremely im-probable that any action of this character will be enacted, unless it is possi bly something in the way of amendment to the law establis partment of Commerce and Labor, with its Bareau of Corporations.

ONGREGATIONAL CHURCHES.

ELECTION OF OFFICERS. (BY THE ASSOCIATED PRESS-P.M.) WOODLAND, Oct. 6.—The forty-seventh annual session of the General Association of Congregational Churches of California convened at the Congregational Church in this city today. About one hundred and seven-type was the decidence of the first session, but more are expected tomorrow. The first business of importance was the election of officers for the ensuing year, while resulted as follows: Dr. Baldwin of Palo Alto, moderator; Dr. Adams, San Francisco, assistant moderator; Rev. peribe: Rev. W. E. Eckles, Green Valley, assistant scribe.

The reports showed the condition of the Congregational churches in the State to be very satisfactory, with a gratifying increase of membership. The Pomona College and the Theological Seminary at Berkeley are reported in good condition. Various auxiliaries of the church likewise reported encouraging progress.

The establishment of an English chair at the Berkeley Seminary was recommended. The recommendation will be considered at the proper time during the session. Before, adjournment, standing committees were ap-

duty by building a high and strong levee.

A. L. Sainn, an attorney in the employ of the land owners, said the last Legislature had appropriated a large sum of money for the use of the Board of Public Works. He contended that all of that money was not intended to be used in improving the navigability of the rivers, but that a certain portion of it was to be used for reclamation purposes. He said the people down the river were entitled to recognition, and to the application of a certain part of that money to prevent a change in the current of the river. That threatened current, he said, will destroy their lands. All they ask is that the current of the river be corrected.

Addresses on the same lines were made by A. T. J. Reynolds and W. J. Smith.

Baron Von Rosen, the Russian Minister to Japan, has returned here from a conference with Viceroy Alexieff at Port Arthur and had a short conference with Baron Komura, the Japanese Foreign Minister, on October 3.

Baron Komura has since given out a hopeful interview, but the Japanese Ministers of War and the Navy thereafter had long conferences with the Emperor, Marquis 1to, President of the Privy Council, and Viscount Katsu, the Premier, indicating that preparations are going on to meet any eventuality. The fleet and the army are both without question in readinese, and drgs supplies for both the army and navy shave been accumulated. The arsenais have been quietly at work for a long time past, and the defenses have been minutely inspected.

Popular feeling in Japan is exasperated at Russia's dilatory tactics, and the excitement has been aggravated by the sensational press, which is constantly circulating rumors of fresh Russian aggressions. A large party of engineers, military men and civilians gathered where the highest points of speed are reported in the experiments. A French observer remarked that the new sensation of the power of velocity inspired by the car's fight was worth traveling from Paris to experience. There were twelve to fourteen persons on board the car, all technical men. They affirm that the motion of the car was no greater than that of an ordinary express train. A curious feature accompanying the test is the continuous sparking of electricity from the six trolley arms. CANDIDATES PRACTICING HARD Things are doing in football circles hese days, for the season has opened these days, for the season has opened and will begin in reality this week with games at Pasadena and on the Harvard school grounds in this city. All of the teams that have any aspirations for

teams that have any aspirations for any kind of honors this year are practicing daily and with each team confident, there is bound to be some good football this season, or some hard, earnest play in any event.

All of the teams will practically be determined upon this week, and it goes without saying that the candidates are doing their best to earn a place on their particular team. The line-up can be only a guess at this time, for any day may develop a new player that may outshine some of the old guard. There will easily be twenty-five teams in this city. Each school and college will have one or more, and from the outlook, almost any aspirant who shows any talent can be accommodated with a place on some team at least.

As announced in these columns some

least.

As announced in these columns some days ago the U.S.C. team will play the Throop team at Pasadena on Saturday. Another game that is expected to provide more than ordinary sport will be at the Harvard grounds on Saturday between the Harvard eleven and the team of the Commercial High School.

STANFORD WON'T COME. It can be stated definitely at this time that the Stanford 'varsity team will not come to Southern California to play this year, for the faculty has declared that the team will not be allowed to make any trips to any great distance. The second eleven, however, may come here for a game.

John Widdicomb Creates Beds. Every furniture dealer (unless he has an ax to crind) will tell you that the finest Bedroom Furniture produced in the United States is from the factory of John Widdicomb. This factory is looked upon as a creator of fine beds rather than simply as a cabinet shop where furniture is made. There is a reputation behind John Widdicomb's factory which enables them to select their agents and not depend upon the general trade to dispose of their product. When John Widdicomb creates a bed you may know that it is properly put together, and not only that, it is properly finished, and has a style all its own. We handle the John Widdicomb goods and are showing a big new variety. This factory produces not only goods and are showing a big new variety. This factory produces not only bedsteads, but all the pieces that go with it, and any sort of a piece you may desire can be found—all woods and all finishes. We are showing a new stock of Buffets and Side Tables in weathered oak and mahogany. Many entirely new effects are smong them.

> at thrilling battle above the croises. Apt in word and gesture, Dr. Mellattre does not resort to pyrescelatic enthusiasm in his portrayal, but confines himself to a simple anecdote of fact. So simple and true is the story, however, that one almost forgets the speaker and the lecturer, and sees only the long opposing lines of gray and blue as they lay face to face, the one above and the other below, in the morning of that historic November day. By and by an enchantment of natural eloquence curries the auditor along with the swaying forward lines of Grant's army, up to the base of Missionary Ridge, still farther up with a wild abandon to the first fortregs of the foe, then over that into the hanging, red-flashing smoke of a very, bell of battle, and finally out in the late autumn twillight on the far summit, with the quite nuturn pursect light, born that day upon on the far summit, with the quiet au-tumn pupset light, born that day upon the stars and bars of Bragg's com-mand, how resting in evening repose upon the triumphant Stars and Stripes. The parting of the family when an only you, stirred with the patriotism rampant in the very air, goes toward the front to fight the nation's foe, was the front to fight the nation's foe, was another little masterwork of quiet pathos. As in the battle scene, one might almost see each and all of the little trifles that made up the setting of such a home scene—the quiet day, with its peaceful sunshine lighting up the whole country world in a homelike giory, the familiar setting of each familiar sheet; of work or play the miliar object of work or play, the father's face of stern sadness, and over all the mother's truske intuition that soon her boy will lie dead on the

field of battle.

Dr. McIntyre has a vast store of facts, and his apt observations on conditions today were met with hearty applause.

The next number of the course will be given November 17 by Edmund Vance Cook, the poet-lecturer.

showed some improvement during the day.

P. R. Hummer was the name of the new employé who died on the relief train en rgute to Los Angeles, his identity having been ascertained before the inquest yesterday from letters from his sister in Okjanoma, found among his meager effects in his tent at Chatsworth. The other two victims were John Connell and Martin Soara, and the body of the latter will be

"IN CASE I GET HURT."

"Henry Vogt, No. 382 Silba street, Hammond, Ind.: I write this address in case I should get hurt on the road."

This inscription was found in the front page of a small memorandum book, dragged forth from an obscure part of the tattered and blood-scaked garments of the young tramp killed in the wreck at Lang. If it had not been for this thoughtfulness on the part of young Vogt, as he departed from his Indiana home to embark on the career of a tramp, he undoubtedly would have been buried in the potter's field here, and an Indiana family never should have known what became of their wandering boy. Yesterday the Coroner wired information of the lad's death to his father at Hammond. Ind. The victim was but 20 years old, and had a time face and physique. He pried his way into a freight car full of ore at Mojava, along with two other hobos. At Lang the axie of the car broke, and the boy's two arms and hands were scraped off against the ties. The other two men were mjured, but both were reported as doling well at the County Hoppital.

The jury at the Coroner's inquest yesterday decided the accident to have been purely an accident. "IN CASE I GET HURT."

NEWS AND BUSINESS.

Charles N. Williams, the efficient assistant in the office of United States Clerks Van Dyke and Owen, was yesterday appointed a United States Commissioner. The occasion calling for the appointment of Mr. Williams is the possible temporary absence of both the other gentlemen, who are also commissioner. The occasion calling for the appointment of Mr. Williams is the possible temporary absence of both the other gentlemen, who are also commissioner.

Justice Austin's Police Court was occupied during the greater part of yesterday with the case against Mrs. Laura Hill, an outgrowth of the new famous struggle for the cash of Salem Charles. The lady is charged with having bribed witnesses to testify that she is the widow of Hill. The case will be taken up again this morning.

Charles C. Lane, a tough and rather flashily-dressed fellow of 23, was arrested in a North Spring-street lodging-house yesterday afternoon by Detectices Talamantes and Ritch, charged with abduction, the order coming from Red Bluff, Cal. Josie Bloxham, a pretty girl of 16, who is the abducted in the case, and who was living with Lane as his wife, was a runaway girl. The detectives have a runaway girl. The detectives had nothing more definite than a printed description of Lane, but clevrly plicked him out of the throng. He admitted his identity. The crime with which he is charged is a felony, and he will be held here penaing the arrival of Sheriff Boyd of Tehama county, with a warrant.

Suicide at County Hospital.

Louis Dohren, insane and afflicted with the delusion that inoxerable enemies were pursuing him to kill, cheated the imaginary foes by hanging himself at the County Hospital yesterday. Dohren, who was 28 and formerly a waiter in San Francisco, arrived at San Pedro about a week aşo. He sprung his favorite haliucination about the enemies right away and was brought to the County Jail. Shortly afterwards he was transferred to the County Hospital, where he seemed cheerful enough. A few minutes before 11 o'clock yesierday morning an attendant was talking to Dohren through the hole in his cell. Shortly afterward he looked through and saw Dohren's body suspended by the neck from the bars of the window. Dohren had taken a money belt from his waist, fastened it to a bar and paszed his head through the loop, strangling himself.

Southern California May Get a Pentlentiary.

be After the "Prize."

Los Angeles Legislators Favor Institution, but Not in This City.

Southern California is to have State penitentiary if the plans of some of her Assemblymen pan out. Assem-blymen F. W. Barnes and John Burges of San Diego county visited Los An-geles last Saturday in connection with a bill that is being formulated for the next Legislature, which will ask for an appropriation of \$1,000,000 for

a measure would not have received the Governor's signature last session, at 500,000. The unanimity of the stock-holders in this important matter shows the next one he cannot but appreciate the crying need for a new and modern penitentiary. It is possible that if the penitentiary were put down here it would be used for the accommodation of the long-term wards, and that the minor cases would be sent up north. The system of not having the different grades more completely separated is a bad one."

"Oh, yes, a new penitentiary must be provided for by the next Legislature, and I am in favor of having it built in Southern California," said J. P. Transue. "The saving to the State will be great, and the distribution of the funds is the principal factor which makes it seem reasonable to expect that a new penitentiary will be located in the south, and if I am reflected I shall do all I can to bring it this way."

No dissenting voice against the prop-

osition was found, and all of the Assemblymen interviewed seemed willing that San Diego should get the prison if she desires it. The two gentlemen from San Diego who are working on the Q. T., seem to have the assurance of a solid support from the legislative body of Southern California.

Gusts of wind, produced by powerful fan blowers, will take off visitors' hats as they enter the cave, and other features will be incorporated. A "House of Trouble," which is a similar scheme, will be erected. Probably the most amusing feature of them all is to be a "Laughing Gallery." By means of cunningly-silvered trick mirrors, the images of spectators are reflected back in strangely distorted shapes. W. M. GARLAND ON THE WITNESS STAND.

From letters read in court yesterday it was evidenced that whele Garland was urging the public to "keep an eye on Main street," he had his optics fastened upon the Crocker holdings at Sixth and Main. The letters also contained much of a selicitous nature in reference to other brokers, leat they should beat him out in a sale, and pictured Main-street holdings as of diminishing valuations. Garland, during the years of his agency held the property at \$30,000. Finally urged by Mrs. Crocker's children, who succeeded to the property on her death, a purchaser was found for \$25,000. After much bickering the transfer was made to W. H. Schweppe, he ostensibly making a payment of \$2500. This was supposed to end the matter so far as the Crockers were concerned.

Recent events, however, have convinced the Crockers that Garland deliberately defrauded them, bought in the property limself and cleaned up something over \$16,000 in the deal. According to letters read in court yesterday, Garland all during his agency of the property, represented that the

TO_PAY CAR FARE.

COMMITTEE WILL REPORT.

Chairman Davenport of the Council Supply Committee has been studying the transportation problem for two weeks, and he has about decided to report in favor of the payment of cash fares by city employes. It was proposed to secure from the street railway companies commutation books for the use of city employes who are compelled by the nature of their during lies to ride much on street cars. This plan Davenport is now inclined to believe impracticable.

"I believe the best way to settle the transportation problem for the inspectors is to require each man to keep account and turm into the head of the department an temised list of the number of fares paid, and for what purpose, and at the end of a month the Council can pass demands for these sums." declared Davenport yesterday. "I have been unable to figure out any system of books that would not be subject to abuse. Then there is any proposed to abuse. Then there is any proposed to secure from the council of the council of the numbers of their during the first part of the numbers of their during the first part of the numbers of their houses under a new system of numbers of their houses under a new system of numbers of the numbers of the Council.

"I have been unable to figure out any system of books that would not be subject to abuse. Then there is another feature of the problem. If we ask the rallway company to furnish the city employes with transportation, and accept favors, we will not be in a good position to deny the company favors in turn. I am inclined to favor the payment of cash fares and intend to so report."

HEALTH LAWS. ENFORCED AGAINST CORRALS.

HAD LEPROSY. SICK WOMAN IN CUSTODY.

A woman suffering from tubercular leprosy was taken into custody by the mentioned at the last meeting. I wish to say that as one member of this board is absent I believe it is only just to him to postpone action until some future time."

This statement was received without comment by the other members of the Police Commission, and nothing further was said regarding the proposed investigation at the open session.

After adjournment the commissioners inspected the police force, and later gathered for an executive conference in the office of Chief Elton at the jail. Some, angry words passed between Commissioner Lang and Commissioner Keeney, and the former left the jail in a very perturbed state of mind. Lang, it is said, attempted to justify his motion for an investigation, and was countered by Commissioner Keeney. A heated discussion resulted.

Commissioner Lang emphatically denied the rumor that he intended to resign. He said that he would not quit under fire. It is known that he extign. He said that he would not quit under fire. It is known that he extigned the resign. He said that he chief Lang was left alone.

When Commissioner Ferd Rule returns to the city it is possible that Lang will revive his motion for an investigation, and when Craig sided with the Chief Lang was left alone.

When Commissioners will second the motion.

INSPECTED THE BLUECOATS.

When Health Officer Powers athealth authorities yesterday. With a man, said to be her husband, she had street. The couple-gave their names as Mr. and Mrs. C. C. Chamberlain.

For some time the police and health inspectors have been on the lookout for the couple, as it was known that a woman suffering from this dread malady was en route to Los Angeles.

Happily, the physicians assert that the disease has not progressed to the contagious stage. Dr. R. V. Day, a member of the Board of Health, who has had some experience with lepers, does not believe that the woman has communicated the disease to others as yet.

From information obtained by the health officials, the woman's name is believed to be McQuary. She is supposed to have exaped from the quartantine officers at San Francisco and to have gone with her male companion to San Jacinto. When officers began searching for her in that section she left hastily for Los Angeles.

The couple were placed in quarantine in their rooms, and the woman will be removed to an isolated ward in the County Hospital as soon as the necessary arrangements can be made, necessary arrangements can be made, necessary arrangements can be made, and while the mane wouldn't let him have it when he wanted it. Twice him have it when he wanted it.

The woman is dark complexioned and gives her age as 30 years.

When Health Officer Powers attempted to place her in quarantine she excused herself for a moment to speak to her husband, as she averred. A moment later Dr. Powers caught her in street attire coming from the rear of the house. She offered no further resistance.

WANT RAILROAD.

ELEVENTH-STREET LINE. street from Main to Hoover street; E. D. Silent & Co., owners of Palm Place, have started the movement, and many property owners along the route have already signed a petition to route have already signed a petition to the Council. The people on Tenth, Elleventh and Winfield streets desire better transportation facilities. In the past frequent attempts were made by the Traction Company to secure a franchise over Eleventh street. For one reason or another the concession was never advertised for sale. It is not thought that there will be much opposition to the sale of a franchise along the street, at the present time and the petitioners are sanguine that their request will be granted, and that the Huntington interests will build the road.

A contract was introduced in which this 790 shares were put in the guise of remuneration to Miller for serving as a director of the Yellow Aster. The contract wound up with this language:

"If said Mooers shall so desire he may liquidate this 970 shares by making a present of it to read Miller's wife. Kate P. Miller. Settlement as to past dividends to be had hereafter. "JOHN M. MILLER, "F. M. MOOERS."

Then this question came into the suit: Was Miller entitled to this remuneration individually for his services as a director, or did the money belong to the firm?

It was certified to by Mr. Hatch

subject was never mentioned between them.

Finally Mr. Works asked: "Well, as a matter of fact, Mr. Miller, did you not get that whole block of stock for the firm as a fee and not as a present for Mrs. Miller?"

Miller turned to the court and asked for protection. "Judge Works is trying to get something into the record that does not belong there at all," he said.

A dainty wedding, in a dainty little church, was that of Miss Lillian Burk-hart and Frank M. Tyler, who were married at 8:30 o'clock last evening in the Bethany Presbyterian Church.

the Bethany Presbyterian Church.
Priends had gathered together and
taken upon themselves the pleasing
task of putting the church in to its
gala dress of green and white. The
organ was hidden by a screen of pepper boughs framed in 'ty'. Great
sheath-like date palms, Egyptian papyrus, pinmy pampas grass mingled with
drooping white wistaria and cosmos,
lent their grace to the charming interior, together with numberless
wreaths of old English, ity'.

A musical prelude was played by
George Graves, who managed the music for the occasion. Miss Alice Werulin sang "Call Me Thine Own," and at
the first familiar strains of "Lohengrin," Mr. Tyler, with the minister
and the best man, Bernard L. Tyler,
took their stand at the altar, while
the two ushers, Harry Burkhart and
Ray D. Tyler, led the bridal procession
up the center aisie. They were followed by two fascinating and diminutive ushers, Fay and Percy Halbriter,
in all the newly-acquired dignity of
Tuxedos. Immediately before the
bride, came Miss Hazel Halbriter as
maid of honor, gowned in white organdie, with a bunch of bright red chrysanthemum tied with red ribbon. Miss bride, came Miss Hazel Halbriter as maid of honor, gowned in white organide, with a bunch of bright red chrysanthemums tied with red ribbon. Miss Burkhart entered with her father, John F. Burkhart. She was stylishly gowned in white peau de soie, the skirt having a flaring frill with tiny pin tucks, the bodice was garnished with lace, and over all she wore the typical bridal veil of soft illusion fastened with natural orange blossoms.

typical bridal vell of soft illusion fastened with natural orange blossoms. She carried a sheaf bouquet of white chrywanthemums. Soft music, called "A Dream," was played during the ceremony, and immediately afterward, a charming little innovation was introduced, it was a short little song, "Sweetheart," sung by Miss Werulin. An informal reception to relatives was held immediately after the ceremony at the family residence, No. 1434 Bellevue avenue. Mr. and Mrs. Tyler left for a short bridal tour, after which they will go into their own charming home, which is being prepared for them in Harvard Heights.

This evening at 5 o'clock occurs the home wedding of Miss Minnie Lyser, eldest daughter of Mr. and Mrs. J. Lyser of No. 732 West Seventh street, and Charles Edward Lindenstadt, for-

The dining-room "lowed with bright red colors, being canopied in strips of red crépe paper, huge bunches of bright red roses gleaming from table and buffet. The dainty refreshments were served by six young girls in pretty white frocks; Misses eParl and Ray Strong, Nellie Book, Emma Dabney, Lilly Vance and Nellie Harvey. Upstairs was a punch room with huge Chinese umbrella in the center, from which depended bright Chinese lanterns also twinkled from every corner of the room.

A delightful programme was a feature of the evening's entertainment and consisted of recitations apropos of the occasion by M. M. Eskey and Miss Northrup; an instrumental selection by Mrs. Stephens, accompanied by Mrs. Stephens, accompanied by Mrs. Redding received a glittering array of china as remembrances from their hosts of friends.

Notes and Personals.

Fraulein Malvina Lampardius has just returned from a most interesting trip to San Francisco, where she went to attend the Grand Army Encampment in the interest of the German publication corresponding to our American "Army and Navy." Great courtesy was shown to her by the commandant at Mare Island, Fraulein having many tales of torpedo boats and such war-like equipments to relate. At a dinner given in San Francisco, her dinner companion was Gov. Pardee, and they had a spirited conversation in her beloved German, for the Governor is a fine German scholar, having spent several years of study in that country. At the invitation of President Wheeler Fraulein Lampardius went to Berkeley to witness a Greek play given by the estudents. Fraulein's experiences are much more interesting in her German idiomatic rendering of our tongue than when reduced to cold English.

Miss Helen Mathewson, well known in Denver social and club circles, has come to Los Angeles, where she will reside permanently. Miss Mathewson has always been actively interested in all philanthropic and educational work, being the organizer of the day nursery of that city, also secretary of what is known as the Neighborhood Home, a settlement work among the poor, and an officer of the State Bureau of Child and Animal Protection, a society that last year rescued eight hundred children and found "ood homes for them."

Not Necessarily a Lawyer.
"Who is that handsome young man
anding over there?" inquired an old
atteman of a rich old lady at a Party.
"That's my son-in-law. He's a very brilliant young man—made a large fortune by the law."
"Indeed!" said the old gentleman.
"How's that?" "The law made him my daughter's husband."-[Chicago Journal.

Trulock wants the usual organizer's fee.

But Trulock is not getting many fees. Los Angeles trainmen do not care much for subterfuges, and they do not want to join a union. A prominent local railway official said yesterday he had information that Trulock is just a figurehead of Cornelius, the San Francisco agilator, who has wrought so much costly havoc in the industrial affairs of the northern metropolis.

Here is the tone of a little personal note of illiteracy that Trulock writes on the back of a small folder that he distributes to trainmen: "Call on me any time and I will tell you how you can join this Brotherhood. Steam Rail Road men have Brotherhood and were not fired for Joining them why should you be, you are an American Citizen, and when you Join this order you are committing no crime or breaking any law whatever, now why should you hesitate to try and better your condition?"

TOURIST HEADQUARTERS. Miss L. L. Whitlock, one of the most competent instructors on the glories of California, has opened a travel and hotel bureau at No. 207 West Third street, to which are attached no commercial features. "It is just a convenient meeting place for tourists," as she herself puts it. The location is on the ground floor and is nicely furnished with rugs, tables, lounging furniture and other paraphernalia designed for the comfort of travelers seeking information about hotels and points of interest anywhere in the Golden State. At the disposal of the inquirer are all sorts of printed matter and pictures. In this venture Miss Whitlock is heartily indorsed by both the Southern Pacific and Santa Fé and the leading notel men of California.

French, first half of November shipment from France, offer at 81-2 cents; Marbots, same shipment, 21-4 cents. Grenobles are expected to be late in getting off, depending more or less upon the weather during the duying period, and offer for November shipment from France at 10 1-2 cents.

CANNED FRUITS. Says the San Francisco Trade Journal: "The market holds to very strong figures with assortments badly broken. The demand for Europe continues, particularly for pears and apricots. Several of the canners will only make a 75 per cent. delivery on pears and apricots, are scarce, as are second and watered peaches. Cling peaches are also scarce. While new business is being done, yet canners are not seeking it, preferring to wait until they have taken account of stock and see how they stand. It is quite likely that some of them, at least, will undoubtedly, be in position to offer goods in all lines. Heavy shipments are being made by all the canners. Several canners are still packing pearu, late varieties of peaches and grapes."

GENERAL BUSINESS TOPICS. CITRUS PRUIT SHIPMENTS. Car Carload shipments of citrus fruits from Southern Caalifornia to eastern points as reported daily for the pre-ceding day are as follows, the season beginning November 1, 1902:

POTATO DISEASE. The Eau Claire (Wis.) Leader discourses as follows on the subject of damage to the potato crop: It is now perfectly clear that there will only be half a crop of potatoes in Wisconisin this year owing to the rot. This is a great loss. The yield in this State is about 30,000,000 bushels. This year it will not be more than 15,000,000. This loss is attributed to the excess of moisture, but it can also be attributed to the fact that farmers here are very negitisent about changing their seed. They keep on planting the same potatoes year after yer, and this inbreeding ivvariable brings on disease. It was this which caused the destruction of the potatoe over and over again, and they had been gradually setting worse every year, until they were completely destroyed. After the famine, seed potatoes over and over again, and they had been gradually setting worse every year, until they were completely destroyed. After the famine, seed potatoes ever since. There is one man in Eau Claire county who changes his seed every year. That man has never had a rotten potato in forty years. This matter is worthy of the closest investigation.

LOCAL PRODUCE MARKETS.

Business is reported picking up at a rapid rate, and winter's rushing activity comes on apace. The local produce markets today (Tuesday) were without especial feature. The early arrival of a carlond of bananas, green, but in excellent condition, will relieve local acarcity sooner than expected last week. The price is now \$\frac{4}{5}\$ cents a pound, owing to advances the country over. Shortage in supply and increased consumption are the causes assigned. A carlond of consureries also arrived today, and were offered to the trade at it a barrel in single lots; \$3.50 in ten-barrel lots. The High School Debating League of Southern California held a meeting in the office of the County Superintenent, at which nearly all of the sixteen high schools were represented. It was decided to attempt to bring Boston Wool Market.

Boston, Oct. 6.—The wool market continues quiet, though some improvement is noted, and there is a fair amount of wool effing in moderate-sized lots. Fribes are firm, as dealers can see no reason why they should sacrifice the wool they have on hand when it form: Territor Indaho, fine, 18613; fine medium, 186619; Jitah and Nevada, Bre. 18612, medium, 186719; Montana, fine choice, 20021; fine medium choice, 18620; stapic, 20021; medium, choice, 20021; low, 18620.

Territory wools lead the see calls for 53963; fine medium is selling at 689 66, and medium 48447. Fleece wools are firm, with excellent demand for medium. about a joint debate with the league of Northern California to determine the championship of the State. It is probable that four series of debates will be held during the year. The first series will be held prior to November 25, according to the follow-ing schedule: Los Angeles Commercial ing schedule: Los Angeles Commercial vs. Los Angeles; Long Beach vs. Santa Monica; Pasadena vs. Whittier; Covina vs. Pomona; Riverside vs. San Bernardino; Glendale vs. San Fernando; Downey vs. El Monte; Monrovia vs. Compton.

The officers of the league are Walter K. Fuller of Pomona, president; Frank L. Borden of Riverside and Miss Velma Sharkle of Long Beach, vice-presidents; Clayton Shipway of Covins, secretary; Carl Snibs of Santa Monica, treasurer.

It is desired to have all high schools in Southern California unite with the league, and thus still further increase unity among the pupils.

Born in Nevada about twenty-three years ago, Jennett spent most of his life in Southern California, and became an accomplished musician long before he became of age. He was afterwards for some years connected with a plano house in the City of Mexico, and here he had some experiences which are liable at the very farthest to be no more than duplicated during the rest of his career.

Called upon to introduce musical instruments into the wilds of Central America, transporting them miles and miles over mountains, valleys and through tropical jungles to fill with melody the haciendas of rich country gentlemen, he traveled much through the desolate and almost uncivilized portions of the American tropics.

I was deserted a year ago by Mr. Luddy at Wheelers' Springs, and since then have earned my own living by working there. It is true he has been to the Springs since that time and I have waited on him when he needed me, but we have not lived together as man and wife. As for his diamonds, I have not got them nor anything of his. He has given me nothing more than a man gives his wife, her board, perhaps, but further than this he has pever given me anything. The diamond pin which he speaks of and which he says I have, was stolen from im at the Rosslym Hotel in Los Angeles and Capt. Bradish of that city has the pin from which the diamond was stolen. I have none of Mr. Luddy's lewelry, and why he should detain me I don't know, I am sure."

When told that Luddy aid they were never married, she asked: "Why, I were never married, she asked: "Why, I we were never married, should I get a divorce? I would like to have back the snapped out.

Luddy is said to be a man of means, a former saloon-keeper of Los Angeles who made money in real estate and who now lives off the interest of his money. He left for Los Angeles who made money in real estate and who now lives off the interest of his acternoon.

Ars. Los Angeles Boy to Represent Big German Piano Firm at the St. Louis Exposition.

Distinction has again sought out an Angeleño for her own, the recipient of her favor this time being William M. Jennett, formerly in the employ of the Beech Music Company,
Jennett has just been chosen petal American representative of one of the largest music houses of Berlin, Germany, and is to 'take full charge of an extensive exhibit to be made at the St. Louis Exposition next year. Connected with Jennett's success is a pretty little romance of family blood coming back to its own again, after more than half a century of separation from the loved profession, Many years ago, the father of Mr. Jennett's mother. William Mussterman of Hamburg, entered the employ of the same plano company which is now making his grandsou special representative in the United States. For many years ago, the father of Mr. Jennet's mother. William Mussterman of Hamburg, entered the employ of the same plano company which is now half in the United States. For many years he stayed in the trade, finding his grandsou special representative in the United States, to have his children brought up within its confines, and to carry on his musical indertakings here. He did not come, however, and died as he had lived with but note leaving the kind soil of the father individual the melodic love of his grand-father. He cultivated his talents, and the mother noticed that her son, william Jennett, was born. None of his father's family evinced a musical taste, and it was with some surprise that the mother noticed that her son inherited all the melodic love of his grand-father. He cultivated his talents, and father. He cultivated his talents, and father. He cultivated his talents, and father. He cultivated his talents, and first employed.

CHRONIC TROUBLES

Of men are treated by therough, scientific and skillful methods that result in permanent cures—there is no guessing, no experiment-ing, but work that is based on a thorough knowledge of our business. Our long experi-ence in treating every known chronic treable has given us the knowledge of how to cure where so many fail.

We Can Cure Every Case of Varicocele Thousands of men are afflicted with variencess. Most of them have tried unsuccess ul treatments and are of course prejudiced against any and all who pretend to cu-case of variencess. When we say we can cure every case of variocesis without fallure and do it without pain or use of the knile, it, of course, sounds just like thousands of other statements made in advertisements, and for that reason we go further than any one else and say that we will show any number of oured cases among the best, most reliable men in Los Angeles. Any man who earnestly desires relief from this annoying and grave condition, which continually sape his vitality, cas, by calling at our office, acree a list of names of prominent men in the sity who have been cured of variocesis by our receivant. He can also get a fry cammation and description of how we corre variocesis in FIVE DATS, never to return.

Weakness, Its Cause amd Cure

Nearly every man suffering from so-called vital weakness has a curable cause which is at the bottom of the trouble. The main causes are stricture, variococcure enlarged, inflamed provists, results of abuses and excesses, badly treated disorders etc. which obstruct the functional centers. When a man applies to us suffering from weakness we find and remove the cause just the same as an expert engineer or electrician finds and removes the cause upon the machinery fails to do its work. We have no difficulty in curing these cases; we have cured them by the thousands. We have the necessary knowledge, skill and experience to find the cause and give the proper treatment, thus putting the organs in a normal condition, when the weakness disappears, which was only a symptom of the real trouble.

Our book and colored plates will give you some valuable information on this subject. They will be mailed to you free.

Disorders of the Prostate Gland

We have found in a practice of seventeen years devoted exclusively to Nervous Disorders of the Male, the most frequent cause is a Chronic Inflammation of the Protate Gland, the center of the reproductive system, which is very rich in nerves. What the termination of these nerves is kept in a constatt state of excitement by a chronic inflammatory process, it is very clear that by transmission of this irritation to other nerves. The most request of the control of the most varied character and WEAKNESSES, but never the production is contracted disorders of carly dissipation and excesses. The main object is to reduce the swollen or inflamed gland.

The plan for stranging for open air, park band concerts for the winter season also was talked over, but nothing definite decided upon.

The funeral of the late Mrs. Leonard Perrin, wife of the president of the Pasadena National Bank, will be conducted this afternoon at 2:30 o'clock at the family residence, No. 811 North Raymond avenue, Rev. William Mac-Cormack officiating.

Constable Wallis several weeks ago arrested John Peters, the coachman in the employ of John 8. Cravens for cruelty to animals. His offense was the use of the bristle burr on horses' bits. The case will come to trial in Judge Congdon's court next Tuesday, and it is understood that Mr. Cravens intends at that time to demonstrate that the bristle burr is not an instrument of torture to horses, as alleged.

The Pasadena Improvement Association at the instigation of Colin Stewart, has taken up the matter of widening the parkway between the guitters on West California street in conformity with South Pasadena avenue and Beliefontaine. Not all interested are entirely in favor of the change, and a committee has been appointed consisting of Colin Stewart, J. F. Barnes and William McGregory, to ascertain the wishes of the property owners.

Field Assistant R. S. Hosmer and Forestry Agent L. C. Miller, who have been making an extensive trip through the mountains above Sierra Madre, passed through Pasadena yesterday en route for Alpine Tavern, where they will investigate soils and trees.

septic tank, which is to be a part of the city's sewer system. It is said that it will be the biggest septic tank in Southern California.

Located west of the town proper, the tank will have a length of 582 feet, a width of four teen feet and a depth of four feet. It is being constructed of wood—two-inch stuff, tongued and grooved in the milling. If the city desires at any future time to make a cement tank of it, the change may readily be made The inlet is a pipe eighteen inches in diameter The outlet will be twenty-two-inches in diameter. The tank will be so built that only half of it will be directly connected with the inlet at once. While one-half is filling, the other half may be kept filled with sewage undergoing the purifying process.

The results of the septic tank system of sewage disposal are pretty well demonstrated at the Soliders' Home and elsewhere. The unpurified sewage runs through the inlet into the tank. The tank is arranged with partial barriers or baffle boards which prevent a direct flow of the sewage to the outlet and keep it nearly quiet in the tank. After the tank has been in use two or three months so that it is in complete operation, a hermetically tight crust forms on the surface of the sewage. The bacteria in the liquid work rapidly and the solid matter is quickly disintegrated. A small quantity of solid matter is precipitated and the rest is thoroughly dissolved. The purified sewage emerging through the outlet has the appearance of clear water.

Dr. John R. Haynes Studies Old World Conditions, and Draws Conclusions

"The English laborer and his wife and children are not getting enough to eat," said Dr. John R. Haynes yesterday. Dr. Haynes has just returned from an extended tour of Europe, where he made a close study of sociological conditions, and his conclusions show that the American workingman's position is exalted and happy beyond comparison to that of the Old World toiler, who cannot make enough to buy bread.

"You know that the standard of phy-"You know that the standard of physical requirements for enlistment in the British army has been three times reduced during the past ten years, and that another stepdown is imminent, as four out of seven applications are now rejected on grounds of physical lack," continued Dr. Haynes. "As English labor supplies the British soldier, this steady dropping of the standard is a commentary on the past, present and prospective condition of English labor, which is only emphasized by personal observation of the laborer himself. The first class is made up of families having an income of less than 18 shillings weekly, and it contains 4.2 per cent. of the working-class population of the city of York, or almost 3 per cent. of the total population. That is to say, of all the workers of York, one in every twenty lives under the pressure of chronic want. Conditions prevailing among these people are well summarised by the report of one of the Rownling whose income was 17 shillings a week. The wife was given the money, and of it she put aside that required for the payment of the rent; then she planned exactly how the remainder could be sparted for the purchase of a sheep's head or of 'meat pieces.' Upon becoming aware of preenancy this woman set aside odd coppers till 5 shillings had been saved to pay a nurse for a week. The woman stated proudly that she had always been able to pay the nurse this 5 shillings before she left the house. During the time this woman nursed her children she lived chiefly on bread and tea. Some of the children died during their first year; the wonder is that any should have lived to see the second year.

"Members of class 18 get more wages, drawing down on pay day a sum equal to 18 shillings, but not reaching 21 shillings; it is a larger class than "A," including about 10 per cent. of the working classes and 5.9 per cent. of the working classes on the part of the wage barner means hunger for the other members of the something every day. Good Merchandising Does It.

There is only one criterion by which the public go and which causes them to give their patronage to any store; and that is honorable honest merchandising methods. In the twenty-two years we bave been in business in this city none can honestly say that we have ever yet failed in our duty toward the public. We may make mistakeseveryone does-but we are more than willing to rectify any error; nor do we wish you to keep any merchandise purchased here if after inspection at home you think you might have done better elsewhere. In pricing our goods we are satisfied that we are making only a fair margin of profit and do not think that any other merchant can offer a similar grade at as low a price. It is the fundamental principle of this store that "what others advertise we sell for less," and for that reason we have made this a safe store for even children to trade. While we try to serve you faithfully if there is any suggestion a patron can make as to where we can serve you better, we will cheerfully give such suggestions our attention.

Clearance Sale of Refrigerators.

Every family needs a refrigerator. Its use saves its cost many times over in the course of a year by permitting you to keep edibles fresh. A poor refrigerator wastes ice; a good refrigerator saves it. By a good refrigerator, we mean the "Leonard Cleanable" refrigerator, for which we are exclusive Los Angeles agents, and there is no other make we have ever found so satisfactory to our patrons. Our refrigerator salesroom is at present in the basement, but the space must soon be given up to the toy section, and we cannot carry such cumbersome articles in our third floor department, so, in order to dispose of them quickly, prices have been cut to such a low margin of profit that it makes it a money-saving proposition which it is to your own interest to take full advantage of.
